

Planning & Resource Management

- 1) Fact based planning & Pricing
- 2) Actual need mapping
- 3) Best ROI for customer
- 4) Best Freight Through put with smart designing
- 5) High quality packaging material for private labelling
- 6) Large Raw Material storage capacity for uninterrupted supplies.
- 7) Stiff Raw Material procurement and quality control – First Quality Toll Gate
- 8) Onsite Compound testing before charging – Second Quality Toll Gate
