

Quality Management System

- 1) Institutionalized High Class - Quality Assurance, Quality Objective, Quality Practices, Quality Standard and Testing Methodology system
- 2) On Line Random Sample Visual Inspection – Third Quality Toll Gate
- 3) On Line Random Sampling Air Testing Mechanism – Forth Quality Toll gate.
- 4) On Site Random Sampling Tensile and Elongation Testing Unit – Fifth Quality Toll Gate.
- 5) Post Chlorination Random Quality Check – Sixth Quality Toll Gate.
- 6) Pre-packing Random Sampling Visual Inspection – Seventh Quality Toll Gate
- 7) Post- packaging Random Sampling Visual Inspection – Eighth Quality Toll Gate.
- 8) 100% Conformance to all International quality standards – ASTM Compliance and European Standards compliance.
